**No: NWP-CDMA/NIC & EVDO CARDS/VOL-IV/69 DATED 22.05.2010**

Sub: Offline creation of RUIM based EVDO data cards-reg.

Ref: 1. This office letter of even no 60 dated 12.05.10

2. Letter received from BSNL HQ no. 69-14/2009-CDMA dated 28.04.2010.

Kindly refer to BSNL HQ letter at reference 2, vide which it is confirmed that RUIMs supplied to field units require modification in certain parameters to comply with national roaming. As a remedial measure, vendors for RUIM cards are supplying card reader & necessary software in every circle. Subsequently parameters stored in RUIM memory will be modified to:-

1. Correct NAI values without which roaming beyond West Zone is not possible.
2. Modified CPRL: - now carriers of Kerala, Punjab etc. are missing.
3. Necessary modification to use internet in QMH handsets WAP browser.
4. App levels.
5. IP/ port address of WAP server.
6. Certain minor changes.

In view of above technical issues, it would not be advisable to sell RUIM based EVDO data cards as directed vide letter at ref 1.

However if SSAs find high demand of EVDO services from customers, they may go ahead with offline creation, manual CAF maintenance & billing. In such cases willingness must be taken from customers indicating **"ROAMING IS NOW APPLICABLE TO WEST ZONE ONLY"**. The customer database with contact number & E-mail ID should be properly maintained so that RUIM given to customer may be reconfigured for national roaming.

(Vivek Khare)

Dy. General Manager (NWP-CM)
